PROFESSIONAL SUMMARY

Senior Software Engineer | Technical Lead | Engineering Manager | FinTech & Enterprise Systems with 13+ years of experience delivering enterprise and FinTech applications. Proven ability to work as a hands-on individual contributor while also leading and mentoring development teams. Expert in designing scalable application architecture, performing code reviews, defining coding standards, and driving Agile delivery. Strong experience collaborating with business stakeholders to convert requirements into well-defined user stories and technical tasks. Specialized in .NET ecosystem, Angular, API-driven systems, and high-performance enterprise platforms.

Core Competencies

- ❖ Hands-on Software Development (Individual Contributor).
- ❖ Technical Leadership & Team Mentoring.
- ❖ Application & Microservices Architecture.
- ❖ Code Review & Quality Governance.
- ❖ Agile / Scrum Delivery & Sprint Planning.
- ❖ Business Requirement Analysis & Stakeholder Coordination.
- ❖ System Design & Performance Optimization.
- ❖ API Integration & Enterprise Systems.
- ❖ Production Support & Release Management.

TECHNICAL SKILLS

Programming Languages & Frameworks	*C#, ASP.NET, ASP.NET MVC, ASP.NET Core, Web API, Entity Framework Core, LINQ.*
Front-End Technologies	*Angular, JavaScript, HTML5, CSS3, jQuery, Bootstrap, AJAX*
Databases	*SQL Server, Oracle 11g (Tuxedo Client), MySQL, Sybase*
Tools & Platforms	*TFS, Tortoise SVN, Visual Studio, Redis (Caching), GitHub, JIRA, Spira.*
AI & Automation	*OpenAI API Integration, Prompt Engineering, AI-driven Business Logic.*
Architecture & Concepts	*Microservices, RESTful APIs, SDLC, Agile/Scrum, Code Optimization, Caching Strategies.*

PROFESSIONAL EXPERIENCE

3i Infotech (Client: ICICI Securities)

Project Manager Apr 2023 – Present

Associate Manager Aug 2020 – Apr 2023.

Acted as both hands-on technical contributor and engineering lead for enterprise-scale FinTech applications.

❖ Led requirement discussions with business stakeholders and converted them into Agile user stories and sprint tasks.

❖ Led a team of **6 developers.**

❖ Supported a platform with **100k+ users.**

❖ Reduced production issues by **35%**

❖ Designed application architecture, defined coding standards, and ensured scalability and performance.

❖ Performed detailed code reviews, refactoring, and optimization across team deliverables.

❖ Mentored developers, resolved technical blockers, and guided best practices.

❖ Coordinated with cross-functional API teams for seamless integrations.

❖ Managed deployments from staging to production with business approvals.

❖ Implemented Redis caching and integrated OpenAI models for AI-powered features.

Rite Technologies Pvt. Ltd.

Team Lead May 2020 – Aug 2020 **-**

❖ Led a development team while remaining actively involved in coding critical modules.

❖ Coordinated between clients and development team for requirement clarification**.**

❖ Reviewed code, ensured delivery quality, and met aggressive timelines.

Scrabble Technologies (Client: ICICI Securities)

Senior Software Developer Jul 2017 – May 2020

❖ Developed and enhanced live trading and portfolio management systems.

❖ Played a key role in production issue resolution and performance tuning.

❖ Worked closely with business and QA teams to deliver stable releases.

Cylsys Software Solutions Pvt. Ltd.

Senior Software Developer Nov 2014 – Jul 2017

❖ Delivered full-stack web applications across FinTech, ERP, and real estate domains.

❖ Took ownership from requirement analysis to deployment and support

❖ Contributed to system architecture and reusable component design

❖ Built systems such as MyFundBucket, OMS, and BidRent with full-stack responsibilities.

Infoway Solutions Pvt. Ltd.

Software Developer Feb 2012 – Oct 2014

❖ Developed enterprise applications with direct client interaction

❖ Developed enterprise-grade applications for clients in the hospitality and education sectors.

❖ Participated in end-to-end SDLC including design, development, and post-deployment support.

Integrated Watchlist / ICICI Direct Trader Web.

Role: Lead Developer / Technical Architect

Tech Stack: TypeScript / Asp.NET, ASP.NET Core MVC, REST APIs, SQL Databases / Oracle 11g (Tuxedo client), Cloud Services.

> https://secure.icicidirect.com (In Indian stock market leading full-service financial powerhouse)

- ❖ Led architecture design, requirement analysis, development, and code reviews.
- ❖ Managed deployments for a high-traffic live trading platform.
- ❖ Spearheaded requirement discussions, led development, performed code reviews, and managed deployments.

Healthcare Management Platform (USA Market – Doctors & Medical Providers)

Company: **Rite Technologies**

Role: **Technical Lead / Team Lead**

Tech Stack: TypeScript / Asp.NET, REST APIs, SQL Databases, Cloud Services.

- ❖ Led 4-person team for a cross-functional development team while remaining hands-on with coding for critical backend and integration modules.
- ❖ Acted as a bridge between US-based healthcare clients and the development team to gather, analyze, and clarify business and technical requirements.
- ❖ Designed and implemented core healthcare workflows including doctor, pharmacy, and patient data management.
- ❖ Ensured compliance with US healthcare standards and regulations (HIPAA, PHI handling, secure data exchange).
- ❖ Reviewed code for performance, security, and scalability; enforced coding standards and best practices across the team.
- ❖ Managed aggressive delivery timelines while maintaining high product quality and regulatory reliability.
- ❖ Coordinated sprint planning, task distribution, and release cycles to ensure on-time delivery.
- ❖ Oversaw third-party API integrations and interoperability with healthcare systems used in the US market.
- ❖ Provided technical guidance and mentorship to developers, improving team efficiency and code quality.

ERP Solutions: OMS, Bid Rent, Broker Grading System

Role: Senior Developer / Team Mentor

Tech Stack: Asp.NET, REST APIs, SQL Databases, Cloud Services

- ❖ Designed and developed ERP modules end-to-end.
- ❖ Mentored junior developers and reviewed logic implementations.
- ❖ Online financial marketplace for comparing and applying for loans/credit cards.
- ❖ Conducted end-to-end development, logic implementation, and team mentorship.

Project Name: CAIRP & ABS

- ❖ Multilingual education and admin platforms for document management and student application
- ❖ Tools: ASP.NET, SQL Server.

EDUCATION & CERTIFICATIONS

- ❖ GNIIT Diploma in Software Programming — NIIT
- ❖ Bachelor's Degree — Mumbai University, 2008
